Meeting Agenda

Call to Order

Public Comment

Minutes

Reports

- Quarterly Report Draft – allow for comment.
- 2Year Report
 - o The two-year status report for Grant VSP is due on August 30, 2023. We hope to have a final draft ready for our July Work Group meeting.
 - o The two-year status report should provide an update on the VSP implementation progress for the biennium. We should provide a snapshot of what has been done during each two-year period and should answer the questions:
 - “How far along are we with our planned implementation?” (“status of plans”)
 - o “What have we done?” (“accomplishments”)

General Updates

- Budget - Elliott
- Monitoring Program
 - o During the last VSP Technical Panel meeting it was announced that all VSP counties are required to develop a monitoring plan as part of the fiscal year 23-25 deliverables. The monitoring plan is due before July 1, 2024.
 - o The conservation commission hosted a Monitoring Guide Forum in late March. The Monitoring guide is the document that VSP counties will use to develop monitoring plans for VSP. The guide is still in draft form and a final version of the guide should be available by July of this year.
 - o The table shown in this slide is the structure our plan will be reviewed with. I will provide more information as it becomes available.
- Work Group documents
 - o Chris Young sent over “Conservation District Rules and Procedures” and additional documents regarding public meetings, which we will cover at our next meeting. This is the document we should be using for our work group according to the information I received from Bill Eller.
 - o Resignation form

Project Updates

- OGWRP
- Shrubsteppe Mitigation
- Individual Stewardship Plans
